## PROFESSIONAL SUMMARY

Backend-focused Software Engineer with nearly 3 years of experience designing, developing, and maintaining distributed telecom systems at TCS (Ericsson R&D). Proficient in Erlang, Python, and modern web technologies, with a strong record of debugging complex production issues, delivering feature enhancements in Agile teams, and shipping reliable, well-tested code. Actively expanding into Generative AI, Google Gemini Enterprise, Prompt Engineering, and AI-assisted software development to build the next generation of intelligent backend systems. Seeking backend and AI-focused software engineering roles.

## PROFESSIONAL HIGHLIGHTS

- A Band Performer – FY2024-25
